

CHICO POLICE DEPARTMENT

PRESS RELEASE

530-897-4900

TYPE OF INCIDENT: Presentation of the Bike Path Camera Project

LOCATION OF INCIDENT: Bike Path at intersection of CSUC Bike Path

DATE/TIME OCCURRED: Monday, August 29th, 2016, 10:00 am

INCIDENT CASE NUMBER: N/A

VICTIM: N/A

SUSPECT: N/A

NARRATIVE:

Chief Michael O'Brien cordially invites you to a presentation of the newly installed bike path camera project on Monday, August 29th, 2016, at 10:00am. The project involved installing self-contained safety cameras along the bike path, from Big Chico Creek to West Sacramento Avenue. The project also covers the CSUC bike path as it exits campus, crosses the city bike path, and ends on Nord Avenue. The camera system was designed to make the bike path a safer place to travel for students, citizens, and bicyclists through deterrence, identification of suspects, and evidence collection. This project was completely funded by donations and Chief O'Brien, along with CSUC Chief John Feeney, would like to recognize those individuals who made this project possible.

The presentation will be at the intersection of the City of Chico bike path and the CSUC bike path. Parking will be available for the event at the CSUC Stadium lot. Access to the lot is off of College Drive. Reserved parking with no permit will be available, see attached map.

Chico Police Target Team will be present and will provide a demonstration of the cameras' use and capabilities. We look forward to seeing you all on Monday.
